All About Industrial Services

ABOUT US

Balaji Construction was established six years ago, with the main objective to carry on the business of Warehousing and Industrial Sheds since 2011. The Company has continuously made a progress in rendering services and today it has accomplished a reputation of providing the best infra structural facilities in this field.

Our company is efficient, responsible service - competitively priced - personalized by a management team with over many years of experience in the refrigerated warehouse business. Whether you are a retailer, wholesaler, food service distributor or broker, we will meet all of your refrigerated & dry storage needs. warehouse space is quite different from a storefront property, and not simply because of the cost disparity (per square foot, leasable warehouse space may cost as little as half that of other properties.

ALL INDUSTRIAL SERVICES UNDER ONE ROOF

SERVICES

Civil Work:

It is a professional work discipline that deals with the design, construction, and maintenance of the physical & naturally built environment. As a civil contractor, we are one of the leading service providers for the construction of industrial buildings, land development, roads etc. Our service area covers various industries, educational institutes, Govt. organizations and many others.

Warehouse Construction:

Warehouse space is quite different from a storefront property, and not simply because of the cost disparity (per square foot, leasable warehouse space may cost as little as half that of other properties,

COMMITMENT TO INNOVATION

PEB & Heavy Fabrication Work:

Fabrication is a simple and powerful object generation library. fabrication is the fabrication of metal by cutting, bending, and assembling processes.

Industrial Structures, PEB Structures, Industrial Heavy Sheds, Industrial Pre-Fabricated Building, Warehouses, Parking Lots, Partitions, Mezzanine Floors, Crane Brackets & Beams.

Machine Foundations:

Machine foundations are special types of foundations required for machines, machine tools and heavy equipments which have wide range of speeds, loads and operating conditions. These foundations are designed considering the shocks and vibrations (dynamic forces) resulting from operation of machines.

Treemax Flooring/Road Construction Work:

Aluminum Work (Facade System):

We offer high quality ACP Sheets that find application in various industries. The Aluminum Composite Panel Sheets that we offer are made from imported aluminum coil. We are expert in Aluminum sliding windows, Door partition, Aluminum composite panel cladding, Structural glazing, Curtain wall, Fall ceiling Specialist in patch fitting & spider fitting.

Industrial Interior work:

We are one of the reputed Interior work service providers in the industry. We meet our clients' requirements by providing the best Interior Designers who have the ability to cater to all the design related needs for beautification of their homes with sophisticated furnishing.

Epoxy Painting Work:

As with any other paint job, success with using garage floor paint lies in the prep work. Plan to spend the first day removing oil spots, cleaning/degreasing the floor, etching it with a mild acid, and scrubbing, vacuuming and rinsing (a lot!). Day two is for filling cracks and applying the first coat of epoxy flooring, which is followed by a second coat on day three.
