

# TECHNICAL DATA

## G.A. DRAWING :

Pressure switch Model	: LPSC
Pressure Range	: 80 - 150 bar 130 - 250 bar
Port connection	: 1/4" BSP (F)
Limit Switch	: Type MLBS with 250 V AC, 10A 1 NO + 1 NC contacts

Pressure Control switch LPSC, is employed to sense lubricant pressure of Central Lubrication Pump or System and stop the pump after required set pressure is reached.

These pressure switches are used in Single Line parallel, Dual line parallel and other systems especially with motorised pumps

## MODEL IDENTIFICATION :

e.g. Pressure Control Switch of 80-150 bar range shall be designated as LPSC-1
