Industrial Electronics Repair Services – Work Profile

Dear Sir,

RS AUTOMATION is a service provider for **Industrial Electronics PCB Repairs on chip level in , Pune .**

We can able to service all OEM non warranty and obsolete repairs for a wide range of items includes :

- AC ,DC, Stepper , servo Drives ,HF Drives ,Power supply modules
- CNC and PLC Based machines control cards includes Processor, Memory ,Servo control ,video card ,I/O Card and CRT ,LCD and HMI Displays.
- In process Gauge amplifiers ,balancers
- Standard room Measuring equipment control cards
- Compressor controllers
- Induction Hardening Controllers and HF Generators.

Helping You to save money!:

If you have Industrial Electronics which are obsolete and no strong Local service support available ,The OEM will often recommend expensive upgrades to your equipment ,That is where “R S AUTOMATION repairs comes in .Instead of spending money on what could be unnecessary and expensive upgrades and new cards . we can help your company save money by providing fast accurate and cost effective repairs on chip (component) level .

We cater repairing services on following brands :

A) CNC Systems- All CNC Control cards

NUM 750/760

Siemens- 840C,810T,810G, 820G, System 3, 850M, 880M, Hinumrik 2100

Fanuc- 0M, 6M,11M ,6T,16TT

UNICORN- ELB Surface and Profile Grinding machine

UNIPRO 90- Heller HMC

Haas CNC- VMC and Turning centers

Grundig – Deckel 50 CC, Deckel Maho

CNC 3200- Landis Lund cam profile Grinding Machine.

Helitronic Power – Walter tool & Cutter grinding machine.

PLC Control cards- Allen Bradly, Messung ,Mitsubhishi and Siemens

B) Motion Control –Includes AC ,DC, Stepper , servo Drives ,HF Drives ,Power supply modules

Haas Vector and servo Drives.

Bosch & Indramat – TDM ,TVM ,DIAX04 (Sercos interface) ,KD V, DKC Eco drives .

Siemens – 6 RA DC Master ,6RB,6SC11 , LT Modules ,E/R Modules .

SIEB & MEYER – PS & FC Series

Fanuc- Analog and alpha series

Inland servo Drives

Control Technique HF Drives and VFD- Commander SK Series

L & T , Yashkawa Drives , A1000 & V1000 Series.

ABB VFD- ACS 550

Allen Bradly- VFD A Series

C) In process gauging and balancing systems :

Marposs – E5N, E9, E82,E78

D) Induction Hardening:

EMA & IEI – Control cards and HF Generator controllers .

E) Standard Room Measuring Equipments- Control cards :

HOFLER Gear tester ,ZEISS CMM ,Talyround Roundness tester , Hardness Testers

F) Compressor cards:

Atlas Capco – GA Series controllers

Cards of Packaging machines with **Nordson controller** can be Repaired .

We provide our customer with the ability to take advantage of our cost effective repair services and solutions to keep system running and Productive .

By repairing Industrial Electronics devices ,we are able to extend equipment life by keep older equipment operating reliability for a longer Time .

Pl contact us to learn more about our repair capabilities.

Thanks and regards

For RS AUTOMATION
